

MODELS SNC 488-1, -2, -4 BUSS INTERCONNECTING CABLES.

The Kepco Models SNC 488-1, -2, -4 cables are supplied for the purpose of interconnecting the Kepco Models SNR 488-4 and SNR 488-8 Rack Housing with the IEEE 488 or GP-1B bus. The cables are supplied in three different lengths, according to their model number suffix, as listed in the table below. Each end of the cable is terminated with a male connector on one side, and a female connector on the other (See illustration below).

CABLE MODEL	LENGTH "A"
SNC 488-1	1 meter (3.3 ft.)
SNC 488-2	2 meter (6.6 ft.)
SNC 488-4	4 meter (13.2 ft.)
